

Coding Challenge FE Development (m/f)

Assignment: Create a result list

- Develop an Angular result list with the appended mock data
- Create an async service, which returns the mocked data (fake API)
- The layout should be responsive or fluid and should work for mobile, tablet & desktop
- Please also implement three filters to sort the tariff list (download/upload speed, price or any of the tariff attributes)

Notes:

- If you wrote tests for the JavaScript components please attach them to the project files
- You can use any source-code-hosting service such as Github, Gitlab, Bitbucket etc.
- Please invest not more than 3 hours for this task and if you're not able to finish it, send us the status quo of what you achieved. It's not about perfection but more about the way how you work and what approaches you take
- Optional: Use SASS to compile the styles and Typescript as weapon of choice

Coding Challenge FE Development (m/f)

Mockups:

☐ Desktop

1.	Tarif Name	Download <div>↓ 12 Mbit/s</div>	<ul style="list-style-type: none"> • Tariff Benefit 1 • Tariff Benefit 2 • Tariff Benefit 3 ... 	123,45 € <div>To Tariff ></div>
2.	Tarif Name	Download <div>↓ 12 Mbit/s</div>	<ul style="list-style-type: none"> • Tariff Benefit 1 • Tariff Benefit 2 • Tariff Benefit 3 ... 	123,45 € <div>To Tariff ></div>
3.	Tarif Name	Download <div>↓ 12 Mbit/s</div>	<ul style="list-style-type: none"> • Tariff Benefit 1 • Tariff Benefit 2 • Tariff Benefit 3 ... 	123,45 € <div>To Tariff ></div>
4.	Tarif Name	Download <div>↓ 12 Mbit/s</div>	<ul style="list-style-type: none"> • Tariff Benefit 1 • Tariff Benefit 2 • Tariff Benefit 3 ... 	123,45 € <div>To Tariff ></div>
5.	Tarif Name	Download <div>↓ 12 Mbit/s</div>	<ul style="list-style-type: none"> • Tariff Benefit 1 • Tariff Benefit 2 • Tariff Benefit 3 ... 	123,45 € <div>To Tariff ></div>

□ Tablet

1.	Tarif Name	<div>↓ 12 Mbit/s</div> <div>↑ 6 Mbit/s</div>	123,45 €	<div>To Tariff ></div>
2.	Tarif Name	<div>↓ 12 Mbit/s</div> <div>↑ 6 Mbit/s</div>	123,45 €	<div>To Tariff ></div>
3.	Tarif Name	<div>↓ 12 Mbit/s</div> <div>↑ 6 Mbit/s</div>	123,45 €	<div>To Tariff ></div>
4.	Tarif Name	<div>↓ 12 Mbit/s</div> <div>↑ 6 Mbit/s</div>	123,45 €	<div>To Tariff ></div>
5.	Tarif Name	<div>↓ 12 Mbit/s</div> <div>↑ 6 Mbit/s</div>	123,45 €	<div>To Tariff ></div>

Coding Challenge FE Development (m/f)

☐ Mobile

1. Tarif Name ↓ 12 123,45 € >

Mbit/s

2. Tarif Name ↓ 12 123,45 € >

Mbit/s

3. Tarif Name ↓ 12 123,45 € >

Mbit/s

4. Tarif Name ↓ 12 123,45 € >

Mbit/s
